D/M:

[redacted] attended the meeting of the subcommittee of the INTERDEPARTMENTAL CHEMICAL STATISTICS COMMITTEE at the Tariff Commission with Dr. James H. Hibben presiding. The Committee REVIEWED APPROXIMATELY 200 INDIVIDUAL CHEMICAL items and with one or two exceptions decided that statistics for all of these items should be subject to certain controls in case of all out mobilization; practically none, however, were placed under any type of current control.

At the motion of the CIA representative, it was agreed that in the case of all out mobilization ANNUAL PRODUCTION FIGURES FOR CERTAIN CHEMICALS (to be determined at that time) COULD BE EXCEPTED. Such figures would not be released to the public prior to 120 days after the close of the year to which the figures applied.
